

The **Clinical Managing Consultant** within The Lewin Group will improve policy and expanded knowledge of health care and human service systems. This individual will enact, run, and evaluate programs to enhance delivery and financing of health care and family services. The manager will address shifts in health care practice, technology, and regulation. As a managing consultant, this role will create strategies for institutions, communities, associations, foundations governments, and people to make health care and human services systems more effective.

Skills and Responsibilities include:

- Managing multiple priorities and strict timelines.
- Completing and delivering work product(s) in agreed-upon timeframe within the contracted budget
- Managing and developing client relationships as evidenced by positive client feedback and client engagement with repeated business.
- Completing all administrative requirements on time including time-entry, expense submission, client billing and others as requested.
- Managing a large matrix team and aligning responsibilities.
- Developing new business through the contribution of substantive expertise and technical advice.
- Recognition for professional achievement and skills in health research and/or consulting or clinical experience.
- Demonstrated ability to design and conduct rigorous research studies, especially studies involving large databases or claims data.
- Ability to make sound project resource management decisions with limited oversight from supervisor.
- Ability to develop, satisfy and retain clients by providing excellent customer service and producing high quality deliverables.
- Ability to build, lead and work in a team environment.
- Leadership to support business development activities.
- Ability to develop and write research papers and present at professional meetings.

REQUIREMENTS:

- Clinical background, MD degree and completion of residency program
- 3-5 years minimum clinical experience
- Board certified in medical specialty preferred
- Research training
- Track record of publications or reports
- Interest in public health and/or health policy
- Experience or interest in patient safety research, community engagement, or payment policy is a plus
- Strong oral and written communication skills.

Interested parties please send CV / resume and cover letter to megan_osborne@uhq.com for immediate consideration.a

The Lewin Group is a division of OptumInsight, part of the family of companies that make UnitedHealth Group one of the leaders across most major segments of the US health care system.

OptumInsight is one of the largest and fastest growing health information companies. We specialize in improving the performance of the health system by providing analytics, technology and consulting services that enable better decisions and results. We integrate workflow solutions that deliver data in real-time, and create actionable insights - processing health information that relates directly to and affects one in four patients in the U.S, one in every three Medicaid dollars and one in every five emergency room visits. And we do it all with every action focused on our shared values of Integrity, Compassion, Relationships, Innovation & Performance.

What can YOU do with the right information? At OptumInsight, the possibilities and the impact are limitless. No matter what your role is at OptumInsight, you'll be empowered to ask more questions, develop better solutions and help make the health care system greater than ever. It's always fresh. It's always exciting. And it's never been more important.

Diversity creates a healthier atmosphere: equal opportunity employer M/F/D/V UnitedHealth Group is a drug-free workplace. Candidates are required to pass a drug test before beginning employment. In addition, employees in certain positions are subject to random drug testing.
