

I am writing to ask your help in identifying candidates for a position as Assistant Professor, Associate Professor or Professor in the Medical Center line or the University Tenure Line in the Division of General Medical Disciplines, **Department of Medicine at Stanford University School of Medicine**. We are particularly interested in candidates who have an MD with experience developing and evaluating health services projects and interventions aimed at improving the value of health care.

The predominant criterion for appointment in the University Tenure Line is a major commitment to research and teaching. The major criteria for appointment for faculty in the Medical Center Line shall be excellence in the overall mix of clinical care, clinical teaching, scholarly activity that advances clinical medicine, and institutional service appropriate to the programmatic need the individual is expected to fulfill. Rank and salary will be determined by the qualifications and experience of the successful candidate.

The successful applicant will be an integral part of the **Center for Innovation to Implementation**, based at the **Veterans Administration Palo Alto Health Care System**. The faculty member will be expected to seek independent funding for projects and lead groups of clinicians and investigators in these efforts. We are particularly interested in candidates who have established a scholarly program with interventional implications and who have experience in VA research. Excellent clinical and mentoring skills are also expected.

Stanford University is an equal opportunity employer and is committed to increasing the diversity of its faculty. It welcomes nominations of and applications from women and members of minority groups, as well as others who would bring additional dimensions to the university's research, teaching and clinical missions.

I would appreciate your forwarding this announcement to individuals whom you feel would be particularly suited for this position.

Interested candidates should send a copy of their curriculum vitae, a brief letter of interest and the names of three references to:

Steven M. Asch, MD, MPH  
Director for HSR&D Center of Health Care and Evaluation, VA Palo Alto  
Professor of Medicine, Stanford University School of Medicine  
c/o Misty Mazzara  
Faculty Affairs Specialist

*Stanford University is an equal opportunity employer and is committed to increasing the diversity of its faculty. It welcomes nominations of and applications from women and members of minority groups, as well as others who would bring additional dimensions to the university's research, teaching and clinical missions.*

The Division of General Medical Disciplines in the Department of Medicine at Stanford University seeks a Clinical Health Service Research Investigator to join the Department as Assistant Professor or Associate Professor or Professor in the University Tenure Line (UTL) or the Medical Center line (MCL). We are seeking dynamic individuals to bring intellectual leadership and rigorous scholarship to our existing Health Services Research activities and the position will be based at the Veteran's Affairs, Palo Alto Health Care Service campus.

The activities of the Division of General Medical Disciplines are diverse and include primary care medicine, palliative care, geriatrics, hospitalist medicine, occupational health, statistics and health services. The successful candidate will be expected to have an MD degree and must be trained in health service research and program evaluation. He or she must have substantive experience in internal medicine practice and clinical teaching, and either an established track record of funded research or an established record of scholarly achievement.

The predominant criterion for appointment in the University Tenure Line is a major commitment to research and teaching. The major criteria for appointment for faculty in the Medical Center Line shall be excellence in the overall mix of clinical care, clinical teaching, scholarly activity that advances clinical medicine, and institutional service appropriate to the programmatic need the individual is expected to fulfill. Faculty rank will be determined by the qualifications and experience of the successful candidate.

Interested candidates should submit his or her curriculum vitae, a brief letter outlining their interests and the names of three references to:
