

**Faculty Position**  
**Department of Healthcare Policy and Research**  
**Weill Cornell Medicine, Cornell University**  
**New York City, New York**

The Department of Healthcare Policy and Research at Weill Cornell Medicine, in New York City is inviting applications for a position at any rank from Instructor to full Professor. The ideal candidate will be a quantitative researcher focused on health systems science and healthcare delivery. The successful applicant will have an MD or PhD or equivalent in health services research, healthcare policy, or healthcare informatics. This is a tenure-track position with rank and salary commensurate with qualifications.

The department has significant data resources including the New York City Clinical Data Research Network which includes clinical data from six New York City health systems (Columbia, Mount Sinai, Montefiore, New York Presbyterian, New York University and Weill Cornell Medicine) and 3 FQHCs resulting in a secure data repository consisting of clinical records for 7 million unique patients and 60 million encounters, public and private claims data, and social determinant data. In addition, we have Health Care Cost Institute data from major national insurers including Aetna, Humana, Kaiser and United Healthcare covering 50+ million individuals. Finally we host a state of the art computing environment, the Data Core, that serves as a secure platform for data analysis and includes extensive state and national data available for reuse.

The department has senior collaborators including the Department Chair, Rainu Kaushal, MD, who currently focuses on predictive modeling and new models of healthcare delivery and Division Chief, Lawrence Casalino, MD, PhD, who focuses on the organization of health systems. In addition, there are multiple outstanding faculty collaborators in the department and across the institution.

There are also significant teaching opportunities including four Master of Science programs and a developing PhD program.

The department has close collaborations including Cornell University and Cornell Tech.

Interested applicants should submit a letter of interest highlighting their research and teaching interests, practical experience and career goals in health informatics, a curriculum vita, and names of 3 professional references to:

Rainu Kaushal, MD, c/of Zachary Goodman, zag2003@med.cornell.edu
