

Epidemiologist Department of Neurosurgery

The Medical College of Wisconsin, Department of Neurosurgery seeks candidates for a newly created full-time epidemiology faculty position. The successful candidate will join a highly sub-specialized Neurosurgical research faculty team as part of our outcomes research. The position involves all aspects of the neurosciences translational outcomes center.

Minimum qualifications include a doctorate degree with clinical outcomes experience and interest in translational research. Academic rank is open and will be dependent upon experience and qualifications. Good written and oral communication skills are expected of all candidates.
