

A CAREER WITH MCKINSEY & COMPANY

McKinsey & Company is a management consulting firm that advises senior management of the world's leading organizations on issues of strategy, organization, technology and operations. We are always on the lookout for high caliber individuals to help us fulfill our mission: 1) to help our clients make positive, lasting and substantial improvements to their performance, and 2) to build a great firm that is able to attract, develop, excite and retain exceptional people.

People join us from a wide range of disciplines, and you'll find that we're more interested in the quality of your achievements than your particular area of studies. What is most important to us is evidence of success in your chosen field. Working with us, you will gain exposure to a diverse range of industry sectors and business issues that will not only enhance your career options, but also accelerate the pace of your personal development. In addition, you'll be a member of a core team working directly with senior client executives to address the defining business issues of our time.

So, if you like the idea of a career alternative that will stimulate and challenge the very brightest minds together with the opportunity to work with highly motivated colleagues in a supportive, team-based environment, please join us for our presentation.
